

STUDENT TESTIMONIAL

The two key ways to become a German Super Star is time management, and self-motivation. Before the quarter begins, I plan out what I'm going to be doing every day. I usually allow myself an extra week of the eight work weeks to catch up on anything I'm behind in or get a head start on the next quarter.

My biggest motivator to stay on task everyday is once I'm done with all 4 quarter's worth of German work, I'll be done with my German class and won't have to worry about it anymore. Also, the thought of receiving a 100% in a college level class and receiving college credits.

The best part about this class is you get to decide what grade you want in the class, and your hard work always pays off. There aren't really any horrible elements to this class.

The best tip I can give to complete all your projects on time, is first do Culture, then Rosetta Stone, then Flashcards, Impromptu, Grammar and last Pronunciation. I've always done my projects in this order (from easiest to hardest) and every quarter it has always worked out for me.

So, plan out your work before each quarter, with your easiest projects first, and hardest last. Then work everyday from bell to bell. If you do this you will have extra time leftover and become a German Super Star!
